<p>B.3</p>	<p>Progress Report. Provide a description of the PHA's progress in meeting its Mission and Goals described in the PHA 5-Year and Annual Plan. 1. To expand assisting housing supply by achieving at least a 95% occupancy rate each year. In the last four years the occupancy rate in PH has averaged 99.5% and the utilization rate in the HCV program has averaged 98%. 2. To improve the quality of housing by: a. Achieving and maintaining a high performance status as measured by PHAS (> 90%). In 2018 we received a score of 87 and this score was carried through 2021 due to COVID waivers. Two reasons for the lower score were inadequate liquid financial reserves, and a lower REAC score than usual because the office building was included in the inspectable inventory for the first time since MMHA received the title to the property. It is not reasonable to invest the money needed to address the physical conditions of the office building, and our priority is to focus on the needs of residents. In 2022 we received a very low REAC score which lowered our overall PHAS score to a 78 even though the Financial section had improved in recent years. All PH staff are attending NSPIRE inspection training in preparation for our next REAC inspection under these new standards. b. By achieving a high performer status in the Voucher Program. The HCV program has continued to score 100% in its SEMAP scores in the last five years. New scores were also waived from being redetermined due to COVID in the last three years. In 2022, we scored 93%, which is still high-performing. c. By modernizing housing units through implementing each year's Capital Grant. Over the past five years, we have completed each Capital Grant in a timely manner preserving and improved our housing stock. We replaced the elevator and did related upgrades in our one senior housing building. We have replaced all roofs at both family sites, replaced all the windows at Floral View, and resurfaced the driveway and parking lots at Washington Common. Utilizing HUD Shortfall Funds, from 2020 - 2022, the entire HVAC systems at Morris House has also been replaced. 3. To increase housing choice: Previously, the Payment Standard was always set at 100% of FMR. We have now raised the Voucher Payment Standards several times, now up to 120% of FMR due to market conditions, demand, and more than sufficient HUD-held reserves.. This has had the result of increasing the number of potentially available units and, as a side-effect, this has lowered the rent burden on those residents paying between 30-40% of their income on rent. 4. To improve the quality of life by implementing income mixing in PH: Over the past five years, we have maintained an average income mix and in 2022 the income mixing ratios were: LI (10%), VLI (26%), ELI (59%), >LI (5%) As these numbers demonstrate, we are increasingly serving a lower-income population in this program, and these ratios are relatively consistent for each of our three sites. These percentage are roughly comparable between all three of our sites. 5. To promote self-sufficiency by increasing the percent of employed persons in assisted housing for family projects. At the end of 2022 this figure was 62 %. This is 5% higher than 5 years ago . We no longer have this as a goal, because we currently have very limited means of changing tenant behavior in this regard. 6. To ensure Equal Opportunity in housing: a. By undertaking affirmative action measures through advertisements, logo, promotions and posters. This is done routinely each year in our office and as part of all public communication activities. b. By maintaining a racial minority (2%) and ethnic minority (1.3%) percentage in our housing programs at least equal to the comparable percentage in the population of the county. 2024 Minority %: Public Housing 12% Voucher 17%</p>
